**JINHO LIM**

**PETER SZABO**

Jaroslav Kyša wins the Szpilman Award 2011 for his work 'The Barrier'. Congratulations!

# SZPILMAN AWARD 2011

## JAROSLAV KYŠA The Barrier

Jaroslav Kyša (UK) uses doves as living barriers in the city of London by secretly scattering their favourite fodder in front of shops or across busy streets.

## **JAS DOMICZ** **Joyride**

Jaś Domicz (Poland) goes on a sensual joyride by talking a long circular walk around his neighborhood. He thereby lets his hand continuously touch all the walls, doors, gates and whatever comes his way.

## Bodega Head

From Wikipedia, the free encyclopedia

**Bodega Head** is a small promontory on the Pacific coast of northern California in the United States. It is located in Sonoma County at 38.311°N 123.066°W<sup>[1]</sup>, approximately 40 mi (64 km) northwest of San Francisco and approximately 20 mi (32 km) west of Santa Rosa.

The peninsula, which is approximately 4 mi (6.4 km) long and 1 mi (1.6 km) wide, emerges from the coast to the south. It shelters the shallow sandy Bodega Bay the inner portion known as Bodega Harbor. Sonoma Coast State Beach comprises beaches and dunes along the south side of the promontory. The University of California runs an ongoing marine biology program at the Bodega Marine Laboratory. The laboratory is located on the grounds of Bodega Marine Reserve (<http://www-bml.ucdavis.edu/bmr/>), which is part of the UC Natural Reserve System (<http://nrs.ucop.edu/>). The peninsula is considered a prime spot to observe the migration of whales. A series of trails are a popular destination for recreational hiking.

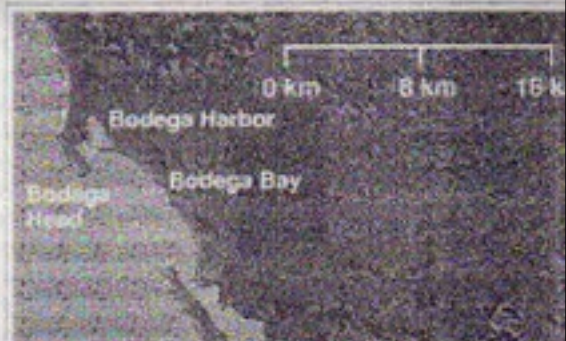

The peninsula was probably inhabited by the Coast Miwok people before the arrival of Europeans. Campbell

Coordinates: 38.311°N 123.066°

A view from Bodega Head.

## DAVID HORVITZ Public Access

David Horvitz (USA) drove up the entire coast of Florida and stopped at every coastal access-point, where he took a picture of the ocean, with him standing somewhere in the scenery. He then uploaded these pictures onto the according Wikipedia-articles of all of those beaches. After some time, several Wikipedia-editors recognized the fact, that there's always the same person on each shot of those beaches and edited or deleted the pictures, but you can still find him, if you search!

# SZPILMAN AWARD 2011

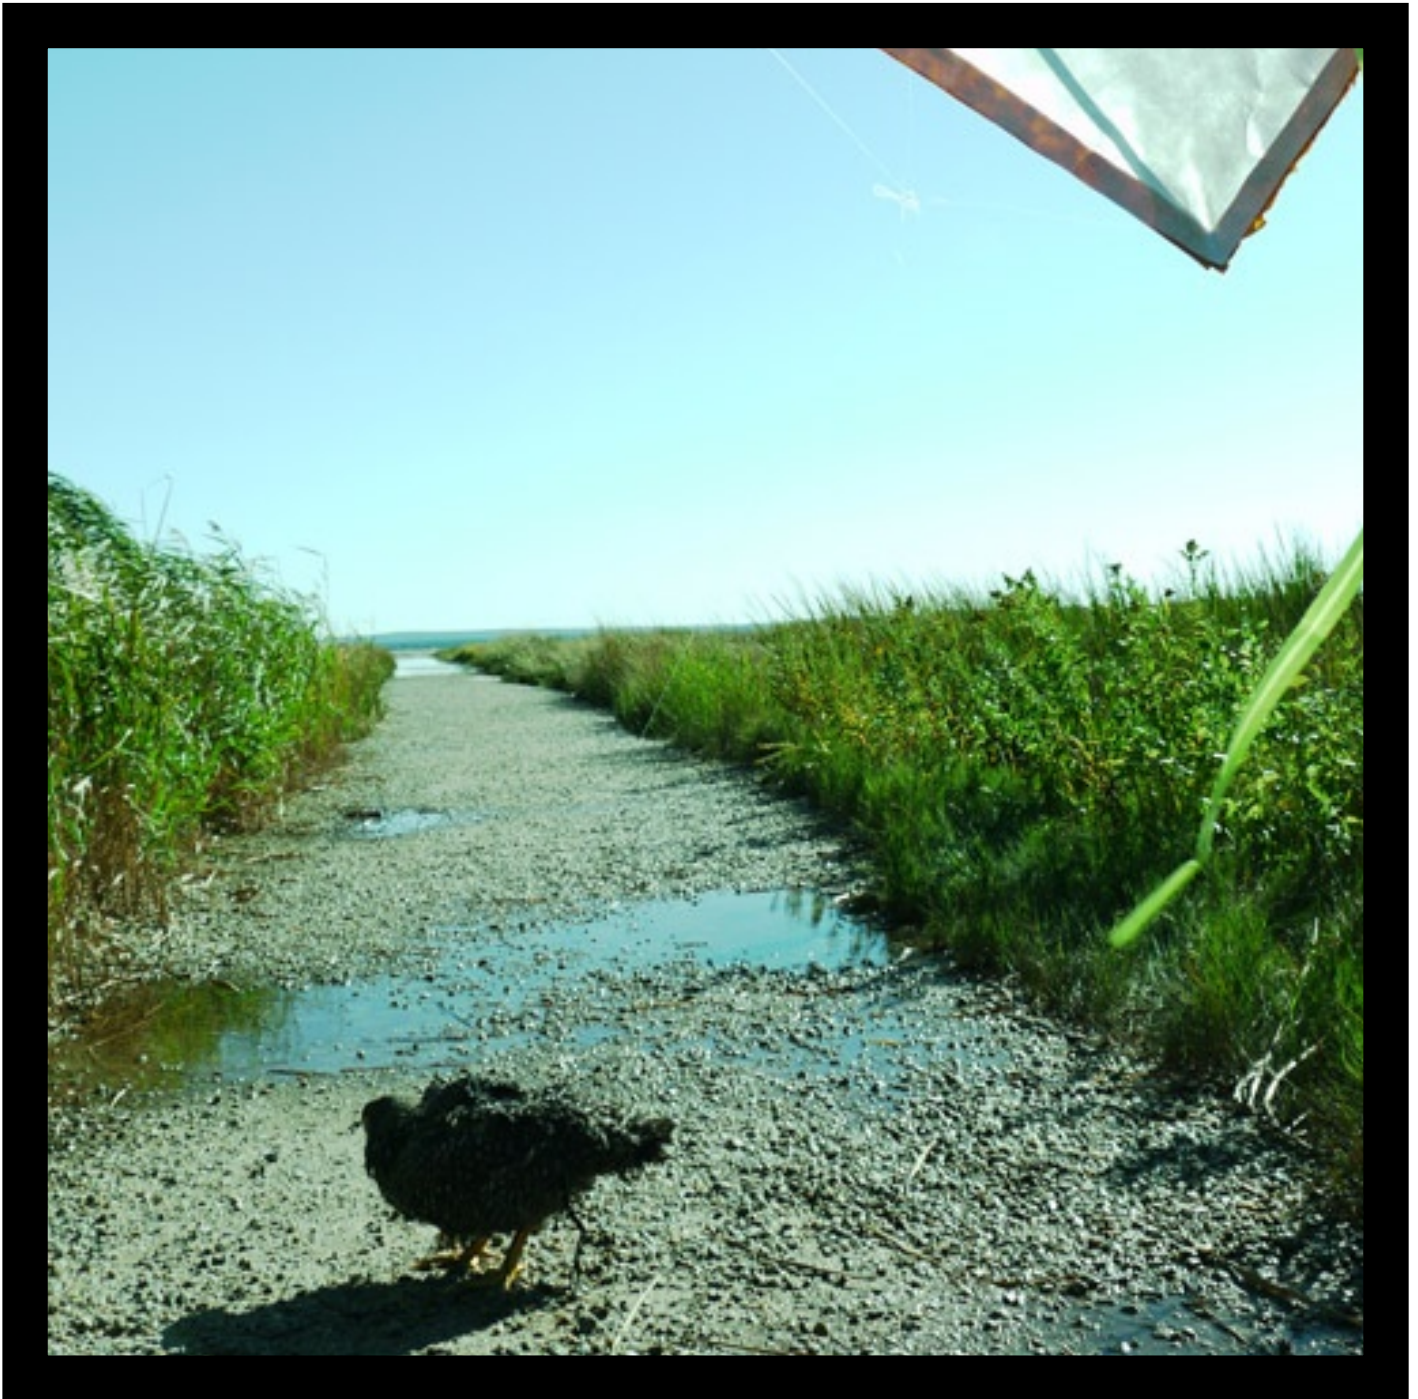

## **PETR KRATKY** **Pentaton**

Petr Krátký (Czech Republic) uses public sculptures as percussion instruments for creating a repetitive and beautifully melodic rhythm.

( video-documentation: [www.award.szpilman.de/best11.kra](http://www.award.szpilman.de/best11.kra) )

# SZPILMAN AWARD 2011

## **JINHO LIM** **Chicken n Kite**

Jinho Lim (USA) attaches a small beautiful kite to a chicken, which now flies a kite.

# SZPILMAN AWARD 2011

## **PETER SZABO** **Buna Dimineata!**

Péter Szabó (Hungary) lit fireworks and fired confetti-cans and smoke-machines for the workers who arrived early in the morning at factories and a bus-station in Romania and Hungary. As some of these factories were to be shut down soon, his labor of love towards the stressed and worried workers appears almost like an alien artistic ritual in the midst of a hopeless daily routine.

# **SZPILMAN AWARD 2011**

The Szpilman Award is awarded to works that exist only for a moment or a short period of time. The purpose of the award is to promote such works whose forms consist of ephemeral situations.

The Szpilman Award is awarded annually.

Everyone can apply for the Szpilman Award. Both individuals and groups of persons are free to apply.

The work must have been realized between October 1, 2011, and September 30, 2012.

Next closing date: September 30, 2012
